

Who are we?

TradeCore is a fast-growing multi-product company at the forefront of innovation in FinTech with offices in Belgrade. We operate across FinTech, RegTech, payments, and crypto verticals. Our passion is providing cutting-edge & easy-to-use solutions to the modern businesses operating on capital markets. Our customers use our products to manage millions of clients and process hundreds of millions of dollars in payments, and we're just getting started. You can think of us as AWS in FinTech.

We are not offering you just another job. You'll be joining a network of people working together to make a difference in FinTech. The team behind TradeCore is what makes us a core service provider for regulated financial service market leaders globally. Our environment is fast-paced, fluid and there's a lot at stake. We do expect a lot from our people, however, we give them the opportunity to make a real impact, grow a career, and take a leading role in our ventures. We're proud of the brilliant people who got us here, and want to hire more of the same. If you want to be a part of TradeCore's team and are up for the challenge, we'd love to hear from you.

Why do we need you?

As technology continues to advance, we have come to the decision to rewrite our code base for our primary product, [BrokerIQ](#), to optimise performance and make it even better. That's where we need you. We are looking for an experienced Front-end Engineer whose main focus will be to mastermind the overall architecture of the system and take charge of all the important technical decisions within the team.

In order to be successful in your role, you should have extensive knowledge and experience with:

- Javascript (functional programming paradigm, working with scopes, events, and DOM)
- Angular JS / React.JS
- Promises/RESTful APIs
- Source versioning (preferably Git)
- Unit testing tools for JS (preferably Jest)

We are offering you:

- An opportunity to work and have impact on cutting-edge FinTech products, while collaborating with great people who will always be there for you,
- A competitive salary, based on your experience and performance,
- A weapon of your choice! You will have a 3000EUR budget to spend on hardware, and we will provide you with any software licences you might need,
- Private health insurance and a FitPass card,
- A budget for professional advancement, as we understand how important it is to work on expanding your knowledge,
- 22 days paid vacation (accruing an additional day per year, up to 4 years),
- Friendly offices in downtown Belgrade with a fully stocked kitchen, and
- Paid lunch every day! :)

As part of the TradeCore team, you have the opportunity to contribute, learn, improve your skills and expand your potential. Are you ready? Visit [this link](#) and apply today! :)
