

Position:

Fully integrated to our Engineering Team in Belgrade, you will be exposed to both the technical and functional layers of our most innovative product, while acquiring a unique skillset on the fast-growing Private Equity industry, and Alternative Investments in general. As a member of an international team, you will also learn how to work in a global Agile company. High achievers will be rewarded with fast track career development.

Product:

We are reinforcing our software engineers in charge of the development of eFront Insight, the fastest-growing product of eFront, dedicated to Alternative Investment companies.

Technologies and Concepts involved:

- PowerShell / C#
- Git / SVN
- IIS
- MSSQL
- TFS / Azure DevOps
- Provision tools (Terraform, Ansible/etc)
- Docker
- Azure AKS
- Kubernetes
- Windows Server administration
- Infrastructure as Code
- Agile (Scrum)

If you are familiar with these technologies, then you probably have:

- BS or Master or Engineer degree specialized in Computer Science or Engineering
- Fluent English
- Experience with continuous integration and delivery process
- Knowledge and Experience in System Administration
- Good understanding of Source Control, Bug Tracking, Scrum Management, and Continuous Integration tools
- Good understanding of virtualization technology
- Creative mindset; strong analytical, problem-solving, communication and time management skills; proactive approach with ability to handle multiple projects simultaneously

Why eFront is a place for you

Our multicultural environment is fueled by creative people who are driven to deliver. We are committed to provide you with an opportunity to build your career, develop and improve your skills as a part of the fastest growing FinTech industry in the world.
