

CallidusCloud is now part of SAP

CallidusCloud is the global leader in cloud-based sales, marketing and learning solutions. CallidusCloud enables organizations to accelerate and maximize their lead to money process with a complete suite of solutions that identify the right leads, ensure proper territory and quota distribution, automate configure price quote, and streamline sales compensation — driving bigger deals, faster.

CallidusCloud has recently become part of SAP whose vision is to help the world run better and improve people's lives.

We are looking for

Linux DevOps Engineer

If your weapon of choice is Shell Scripting and Java based application development, join our rapidly growing team and help us create the best in class cloud apps with state of the art DevOps tools and techniques.

We are:

A cloud company with a focus on building multi-tenant SaaS web applications.

We do not outsource our engineers but develop our own products which are used by biggest companies in the world coming from various industries.

You will be responsible for:

- Help us move our cloud apps to cloud-native platforms such as GCP,AWS
- Automation of all processes (code deploy, environment & tenant provisioning, production monitoring, autoscaling, app resilience...)
- Building CI/CD infrastructure
- Identify and resolve production and non-production application issues

We expect to have:

- Basic knowledge on Java programming
- Good working knowledge on Linux environments is Mandatory.
- Good knowledge of Shell Scripting, Tomcat, ActiveMQ, RabbitMQ, Hazelcast, AWS, Jenkins.
- Good verbal and communication skills in English
- Familiarity with Kubernetes, Spinnaker, or Containers/Docker is a plus
- Familiarity with cloud infrastructure platforms such as GCP/AWS/Azure is a plus
- Linux administration skill is a plus
- Networking skills like configuring F5 is a plus
- Any experience with config management tools (example, Ansible, chef, puppet etc) is a plus

We offer:

- Challenging tasks on latest tech stack
- Competitive compensation
- Private medical benefits for you and your closes family
- Budget for your personal development
- Regular working hours for a good work-life balance
- Very collegial, open-minded team
- Paid sport activities
- Cool working space
