

NodeJS Developer

Work Place : Belgrade/ Cacak / Kragujevac / Nis / Novi Sad

Our team of developers are constantly improving today's technology, by learning and perfecting ourselves.

We encourage them by supporting their ideas, providing them a pleasant working atmosphere, flexible working hours, and enviable teamwork.

On the other side, we prefer a collective and transparent relationship with our clients. They can focus on their business strategies, and we are helping them by delivering them our product that supports these strategies.

We are looking for NodeJS Developer

As a valuable member of our team, you will be working closely with a team of highly skilled developers, on projects different scales.

You will:

- Work on advanced and large scale projects
- Maintain and scale already defined architectures
- Work with latest technologies for both development and deployment
- Explore new technologies and concepts and be ready to constantly improve your skills

If you have:

- Minimum 3 years of professional software development experience
- At least 2 years of experience working with NodeJS, Express JS
- Experience with relational (*PostgreSQL*) and non-relational (*MongoDB*) databases
- Experience with real-time programming in NodeJS (WebSockets)
- Knowledge of commonly used architectural and design patterns
- Knowledge of building REST API's

Nice to have:

- Experience with KnexJS, AdonisJS framework or Redis
- Experience with Microservice architecture

We offer:

- Conventions and conferences in and out of country
- Modern office in popular location
- Flexible working hours
- Employee Gatherings and Team Building Activities
- and much more ...

If you are interested in becoming a part of our dynamic team, please send your resume electronically, or to hr@quantox.com Only shortlisted candidates will be contacted.
