

**eFront** is the leading end-to-end software provider that changes the way the world looks at alternative investments. If you are looking for an opportunity to join talented fast-growing team **eFront** is the right place for you!

We are looking for :

## System Engineer

Department : Internal Apps

### Position

As a system engineer you will be responsible for maintaining our existing infrastructure (including Qlik software) and troubleshooting problems as they arise. If you see yourself doing these activities we would like to meet you.

### Your day would include:

- Participating in the management of internal systems (Qlik, HR system, Finance System, Internal CRM system, Ticketing system etc.)
- Participating in automation of processes to bring operational efficiency internally
- Effective monitoring of systems and proactive actions for any issues that may occur
- Investigating and troubleshooting software issues and failures
- Improving system performance where required
- Providing assistance and cover for other team members where required

### If you see yourself doing these activities then you probably have :

- Minimum 3 years of experience
- A technical degree would be helpful but not essential
- Basic understanding of Microsoft products (Word, Excel, Power point, Outlook is a must)
- Knowledge of Scripting language, VB would be a plus
- Knowledge of T-SQL queries for reports would be a plus

### Why eFront is a place for you

Our multicultural environment is fueled by creative people who are driven to deliver. We are committed to provide you with an opportunity to build your career, develop and improve your skills as a part of the fastest growing FinTech industry in the world.

**Start building your career with eFront now!**
