

eFront is the leading end-to-end software provider that changes the way the world looks at alternative investments. If you are looking for an opportunity to join talented fast-growing team **eFront** is the right place for you!

We are looking for :

Senior UX Interaction Designer

Department : Technology

Position

Fully integrated to our Engineering Team in Belgrade, you will be exposed to both the technical and functional layers of our most innovative product, while acquiring a unique skillset on the fast growing Private Equity industry, and Alternative Investments in general. As a member of an international team, you will also learn how to work in a global Agile company. High achievers will be rewarded with fast track career development.

Product:

We are reinforcing our software engineers in charge of the development of eFront Invest, eFront Insight, the fastest-growing product of eFront, dedicated to Alternative Investment companies.

Your day would include:

- Design the User Experience of our product, from low-fidelity sketches to detailed specifications
- Elaborate new design concept
- Create low-fidelity prototypes to validate design concepts with stakeholders and customers
- Support the development teams on a daily basis in an Agile environment
- Collaborate to the definition of the UX guidelines across the company

If you see yourself doing these activities then you probably have :

- Minimum of 7 years of experience as interaction designer on complex system
- Ability to understand and simplify system
- Good knowledge of UX principles and best practices
- Experience in wireframes, end to end flows, guidelines
- Experience in agile methodology
- Good interpersonal skills and focus to clients
- An Understanding of HTML and CSS will be appreciated, as well as previous experience with Balsamiq, our design tool and FIGMA, our graphic tool
- Experience with B2B product is a plus
