

Full Stack Software Developer with bleeding edge stuff

Full-Time in Zagreb, HR

Software Sauna is a lean and agile software development house with a passion to craft amazing digital experiences for our clients.

In our every day work we combine the Nordic business culture with the top notch engineering skills. We work side by side with our clients on the frontier of digitalization. We provide full stack software development in an agile modern web and mobile technologies. Not to forget the quality (Clean code) is our fundamental principle.

We are founded by two Finnish friends and powered by the leading Finnish digital software development agency. As people and technology are close to our hearts, our humble goal is to build the best working place in Croatia for awesome people.

We're constantly hiring full-stack developers with bleeding edge stack to work in our Zagreb office. Our team consists only experienced developers, so you will have a change to learn and work with the top Croatian talent. We are building world-class services for international companies and brands within several domains.

What we expect from you:

- Crazy skill set and passion to work with tech that you consider useful. Here are some things many of us like: *functional programming, JavaScript, Angular, React, Vue.js, Node.js, Kotlin, SQL and NoSQL. General bleeding edge stuff, but most of us have a strong background in Java and/or Python.*
- Appreciation for agile and lean principles that help you to solve difficult technical problems with clean code. Basic understanding of Test Driven Development and Pair Programming would be an advantage.
- We expect you to be responsible for your work, development and the direction of your career path.
- You communicate well in English (written and verbal) and you are able to work independently within international remote team.
- You are authorized to work within EU.

And what do we offer for you:

- Trust and freedom. That means you can have an impact and make a difference in your work.

- We do our best that you have a smile on your face every Monday morning, and not only :)
- Worklife-balance and well-being are given rights
- Awesome equipment you pick yourself: Mac, Windows, Linux or whatever you desire.
- We promise that you will have a chance to try a real Finnish sauna and travel every now and then if you wish so.

Please feel free to apply and introduce yourself. You can tell us your story and/or share your GitHub/GitLab/Bitbucket repository, whatever you think we should know.
