Full Stack Developer

We are looking for an experienced Full Stack Developer to strengthen our team in Niš in order to increase the speed and quality of our websites.

Office Location: Niš, Serbia
Office hours: Flexible / 7AM-5PM | Monday-Friday

Important note:

It is necessary to reside in the city of Niš to qualify for this position, since the work takes place in Nis. No admissions for remote work will be considered.

The role:

As our Full Stack Developer you will be part of a young, skilled and very ambitious team in Niš collaborating closely together with the Copenhagen based Development team. You will work on our newly acquired projects and websites.

As being one of our new Full Stack developers, we expect that you take ownership and responsibility of the components that you are working on.

It is expected that you have at least 5 years of experience in industry-grade software development, with respect to the following:

- ◇ OOP to the fullest - following SOLID principles, heavily usage of Design
- ◇ At least 3 years of experience in PHP MVC frameworks (e.g. Symfony, Laravel, Slim). Very good ORM knowledge is assumed.
- ◇ At least 5 years of experience with relational databases and very good knowledge of SQL. Experience with NoSQL databases is a plus.
- ◇ Considerable experience in software versioning and code integration flow. Git proficiency - solid experience and understanding required.
- ◇ Experienced Linux user. It is expected that you are very comfortable in Bash and well known shell tools.
- ◇ Very good knowledge of core JavaScript concepts and prototypal OOP in general (ECMA 5, 6). Experience with MVC JS frameworks is a plus.
- ◇ Very good knowledge HTML5 and CSS in general. Sass/less and frontend build tools experience is a plus.

Having strong skills in object-oriented programming, as well as having a good knowledge of Style and Markup languages is required

As we expect that you have accumulated experiences in similar environments, you have very good knowledge of LAMP architecture, including being comfortable with Linux OS administration when necessary.

You will be located in Niš, Serbia, but you will work in an international environment and the main language used is English. Sometimes we love to socialize together having beers and pizza. A relaxed working environment is key for us.

We are looking forward to hearing from you as soon as possible and we accept applications continuously via link
https://bettercollective.easycruit.com/vacancy/2210013/173811.

Questions?

If you have any questions about the position, you are welcome to contact Senior Fullstack Developer, Nenad Jovanović njovanovic@bettercollective.com.
